

M14 SF

The M14 SF is designed to weigh delicate products such as apples, tomatoes, and plums. It uses soft brushes and padded belts to caress products as they flow through the weigher, keeping them free of bruises. The M14 SF also offers a packing range up to 10 pounds and rates up to 40 bags per minute, making it capable of weighing gently at high speeds.

FEATURES

- 14 soft bucket scales to weigh a variety of produce types
- High speed computer scans the weights available in all 14 buckets and chooses the best combination to provide the most accurate weight
- Strong, stable frame with vibration isolation
- Touchscreen computer
- Two computers for performing diagnostics or maintenance while also operating the weigher
- Operators can save packing styles in the user-friendly program for quick and easy changeovers
- Optional belts instead of standard vibrating lanes
- Optional router for remote assistance
- All product contact points are either stainless steel or plastic
