

M2i V

The M2i V compact weigher works well in small packing facilities where weighing accuracy is needed. It provides packers with a medium-speed, steady, and accurate weighing machine for their consumer packs. The M2i V offers a packing range from 1 to 10 pounds at rates up to 18 bags per minute. It can also handle many weighing applications, from fresh produce to birdseed.

FEATURES

- Two vibrating lanes feeding two buckets for increased accuracy and speed
- High speed computer scans the weights in the two buckets to provide accurate weights
- Strong, stable frame with vibration isolation
- Touchscreen computer
- Optional router for remote assistance
- All product contact points are either stainless steel or plastic
- Removable components for easy cleaning
- Compact size/small footprint allows system to fit in tight spaces, and make it more portable
- Available in stainless steel or mild steel, powder-coated
