

BW2

The BW2 is a double bucket weigher used for granulated and free flowing products like salt, sugar, coffee beans, and sand in large weights. Feeding the weighing buckets can be done with augers, belts, or vibrating lanes. The BW2 also offers a packing range from 10 to 50 pounds at rates up to 24 packages per minute. This makes the BW2 a useful addition to many industrial packing facilities.

FEATURES

- Two large buckets to weigh a variety of free-flowing products
- High speed computer scans the weights in the bucket and adjusts the filling process to increase both speed and accuracy
- Strong, stable frame with vibration isolation
- Touchscreen computer
- Optional router for remote assistance
- All product contact points are either stainless steel or plastic
- Buck capacity of 46 liters
- Weighing buckets can be fed with augers, belts, or vibrating lanes
- Frame can be made from stainless steel or mild steel, powder-coated
