

## M8

The M8 is the smallest, high speed, Volmpack weigher. Its small footprint and low cost make it popular for packers looking to decrease product giveaway.

The M8 also offers a packing range from 1 to 20 pounds at rates up to 35 bags per minute, which is great for many consumer pack styles.

### FEATURES

- Eight wide bucket scales to weigh a variety of produce types
- High speed computer scans the weights available in all eight buckets and chooses the best combination to provide the most accurate weight
- Strong, stable frame with vibration isolation
- Touchscreen computer
- Two computers for performing diagnostics or maintenance while also operating the weigher
- Operators can save packing styles in the user-friendly program for quick and easy changeovers
- Weighing buckets can be fed with belts, or vibrating lanes
- Optional router for remote assistance
- All product contact points are either stainless steel or plastic
