

## MD14 XL

The MD14 XL is equipped with 14 extra-large weighing buckets for high output. It is the largest, fastest, large bucket weigher in the Volmpack lineup. The MD14 XL also offers a packing range from 10 to 50 pounds at rates up to 40 bags per minute, which gives packing facilities a boost in production for large pack types.

### FEATURES

- Two rows of seven extra-large bucket scales to weigh a variety of large produce types
- High speed computer scans the weights available in all 14 buckets and chooses the best combination to provide the most accurate weight
- Strong, stable frame with vibration isolation
- Touchscreen computer
- Two computers for performing diagnostics or maintenance while also operating the weigher
- Operators can save packing styles in a user-friendly program for quick and easy changeovers
- Optional belts available versus vibrating lanes
- Optional router for remote assistance
- All product contact points are either stainless steel or plastic
- Large hopper for good spread of product over lanes
