

Available with your purchase is the Volm Spare Parts Kit.

The Spare Parts Kit for your new Volmpack, Wyma and Verbruggen equipment is available now to help ensure **you have the right part - on hand and in its proper place.** Each carefully selected part included in your kit will be thoughtfully organized and conveniently labeled for easy identification and re-ordering.

Having the right parts on-hand now can:

- Help minimize the downtime of your machine
- Reduce costs of individual part shipping
- Offer convenience and better parts inventory control

Why would you buy now? It's a sweeter deal!

Take advantage of discounted kit pricing now with the purchase of your new equipment. After-the-sale purchases of Spare Parts Kits are available, but not at the same low price.

At Volm, quality always comes first.

Our Volmpack automated packaging equipment is known and respected in the industry for its quality and dependability. We stand behind the quality and reliability of your Volmpack Equipment and back that commitment with best-in-class service and technical support.

Added security at the time of purchase.

Like any machine, your new Volmpack weigher is made up of moving parts that age, wear and are subject to failure. When a common part is needed, don't let it take you by surprise. Having our Spare Parts Kit can save you a great deal later on if the unexpected happens.
