

## MD10 XL

The MD 10XL is the little brother of the MD 14XL. The MD10 XL is equipped with 10 extra-large weighing buckets for high output. The MD10 XL also offers a packing range from 10 to 50 pounds at rates up to 30 bags per minute, which gives packing facilities a boost in production for large pack types.

### FEATURES

- Two rows of five extra-large bucket scales to weigh a variety of large produce types
- High-speed computer scans the weights available in all 10 buckets and chooses the best combination to provide the most accurate weight
- Strong, stable frame with vibration isolation
- Touchscreen computer
- Operators can save packing styles in user-friendly programs for quick and easy changeovers
- Optional belt available versus standard vibrating lanes
- Standard router for remote assistance
- Large hopper for good spread of product over lanes
- All product contact points are either stainless steel or food grade plastic

### DISCHARGE OPTIONS

- Single Discharge Belt
- Dual Discharge Belt
