

SECURITY TO KEEP YOUR EQUIPMENT RUNNING

The Volm Spare Parts Kit

The **Spare Parts Kit** for your Volmpack and Volmstack equipment is now available. This kit gives you the assurance that you will always have the right part on hand and in its proper place, ready for any situation. Each part in your kit has been carefully selected and thoughtfully organized for easy identification and re-ordering. Additionally, they are conveniently labelled for your convenience.

HAVING THE RIGHT PARTS ON HAND NOW CAN:

- ✔ Help minimize the downtime of your machine
- ✔ Reduce costs of individual part shipping
- ✔ Offer convenience and better parts inventory control

Why would you buy now? It's a sweeter deal!

Take advantage of our current discounted kit pricing when purchasing new equipment. This is a smart financial decision that not only ensures you have all the necessary parts but also saves you money. Please note that after-sale purchases of **Spare Parts Kits** are available, however, they will not be sold at the same low price as the discounted kit offer.

At Volm, quality always comes first.

Our Volmpack and Volmstack equipment have gained a reputation for being high-quality and dependable in the industry. We firmly stand behind the reliability and excellence of our products and demonstrate that commitment through our exceptional technical support and customer service.

Added security at the time of purchase.

Your new Volmpack or Volmstack equipment is a complex machine with many moving parts that can age, wear out or fail. To ensure that you're never caught off guard when a common part is needed, we offer a **Spare Part Kit**. It provides an added layer of security and functions as a safety net that can save you a great deal of hassle and expense later on if the unexpected happens.
